

#### ABOUT US:

Helwan Export is one of the largest export companies in Egypt and the Middle East specializing in exporting fresh vegetables and fruit to most European countries.

Helwan Export has been established in the growing market of Egypt for over 30 years, what allowed us to reach and maintain this grand position within the industry is our long and valuable history and experience. In addition to the awarding of the Global Gap and BRC Certification in both our farms and packing stations in the year 2000.

Starting from the selection of proper seedlings, day one of soil preparation soil seeding, irrigation, green houses, required chemicals till harvest time, each product is monitored and evaluated to ensure the quality and expectations are met. We have got the great blessing of naturally perfect warm weather, fertile soil, beside the use of sophisticated technology to optimize conditions for the growing of our high quality products.

**PRODUCT:**  
Our products are professionally controlled through the use of modern technology, according to their specific requirements including pre-cooling, handling, and packing; either in cartons, sachets or pallets.  
We continuously improve all aspects of performance by adhering to our quality management system planned and developed to meet international standards.

## Helwan Farms:

We have our own farms and we deal with the best supplies guaranteed to provide the finest quality produce under our strict regulations and guidelines.

### Farm 1 & 2

Located at Alex desert road centrally between Cairo and Alexandria, this is a unique central location between two major cities of Egypt in the new arable land with great opportunistic fertile soil. Established early 1990 around 500 acres of both fruit and vegetable cultivations.

### Farm 3

Located in Ismailia /Abu Sultan , rich fertile land .Established in 1995 on around 300 acres .

### Farm 4

Located upper Egypt, Sohag on the most fertile land with plenty of irrigation water and warm weather . Established in year 2000 over 500 acres .

### Farm 5

Located in monofia ( Nile Delta) Established 1990 on 300 acres of black rich soil for best quality cultivations .

### Pack Houses

Located in Ismailia /Abu Sultan , Established in 1990 on 8000 m2 area, employing over 600 employees of highly trained experienced staff in their field .

Pack house was awarded BRC and regularly reevaluated as required achieving the strict required standard.

Both local and international visiting experts are employed, committed to achieve high quality management to compete with the international challenging market, using greater analysis methods on potential hazards, creating new specially designed training courses, increasing emphasis on senior management , demonstrating full commitment to the main aim of achieving and satisfying quality management and product perfection .

### Cold Stores

One cold store for raw products.

Two cold stores for Precooling on high capacity.

One cold store for final product.

To keep our product at its best our equipment, expertise and management have developed specialized Precooling system like high side refrigerment system and specialized cooling rooms according to its specific needs as to their level of risk and fragility.

Each product is barcoded and clearly labeled for easy access and traceability .

## TRUCKS

Helwan Export own a huge fleet of cooling trucks between our farms and different suppliers to our Packhouses then to delivery ports, for ensuring maintenance of same cooling conditions in all stages of handling our products .

## CERTIFICATIONS:

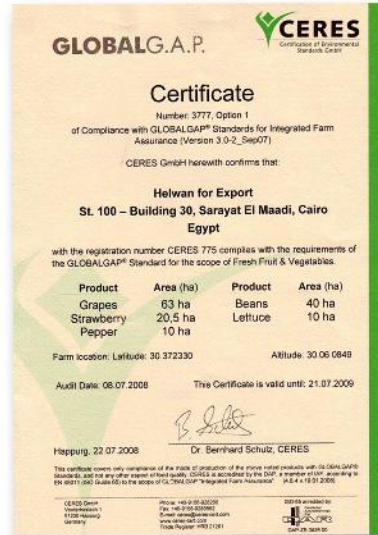

Global G.A.P.  
BRC  
GS1 Member Ship
